HOBBY

- Sports
- Motorcycles
- Music
- Computer Science / IT

OBJECTIF

I aim to enhance my application development skills in an international environment, contributing to innovative projects and gaining valuable experience.

PROFESSIONAL AND PERSONAL EXPERIENCE

Digital and Information Systems Department (DGNSI), State of Vaud

2021 - 2025

- Developed backend with Java Spring Boot and frontend with Angular, creating APIs and responsive user interfaces for internal applications.

- Hands-on training in various technical fields at DGNSI, including network management, workstation setup, project management, and logistics.

- Trained and mentored secondary school students in discovering IT during their one-week internship.

- Worked on apprentice projects, such as setting up server infrastructure for training and designing a training monitoring application.

EDUCATION AND QUALIFICATIONS

Professional school of Lausanne (EPSIC) - 2021 - 2025

- Dimploma of Vocational Education and Training (VET) in application development
- Federal Vocational Baccalaureate (FVB)

Dual training, 60% of the time I work in the company and the other half I attend courses

- Monitoring Inoformation and Communication projects
- Creation and maintenance of digital data
- Provision and operation of ICT solutions
- Application development
- Delivery and operation of applications
